Welcome

Dear colleagues

Advances in systemic targeted therapy and immunotherapy have dramatically improved outcome at least in some types of solid cancer. However, metastasis to the central nervous system remains a major diagnostic and therapeutic challenge, notably in long-term survivors with cancers.

Here we invite you to our 2nd Zurich Brain Metastasis Symposium that will provide state-of-the-art presentations on current and future diagnostic and therapeutic approaches for patients with brain and leptomeningeal metastasis.

We hope to welcome you to another successful symposium of the Comprehensive Cancer Center Zürich.

Rolf Stahel, Prof. Dr. med.
Chair CCCZ

Michael Weller, Prof. Dr. med.
Directorate CCCZ

Program

[Thursday, January 16th](#)

14.00 h Welcome

Michael Weller

Experimental Studies

14.05 h Pathogenesis of Brain Metastasis: Animal Models

Manuel Valiente

14.30 h Branched Evolution of Brain Metastasis

Priscilla Brastianos

14.55 h Molecular Profiling of Human Brain Metastasis

Felix Sahm

15.20 h Discussion

15.30 h Coffee Break

16.00 h Liquid Biopsy

Joan Seoane

16.30 h Circulating Tumor Cells

Klaus Pantel

17.00 h Neuroimaging

Sebastian Winklhofer

17.30 h Brain Metastasis of Unknown Origin

Elisabeth Rushing

18.00 h Apéro

[Friday, January 17th](#)

Keynote Lecture

08.30 h Immunotherapy for Brain Metastasis

Hussein Tawbi

Updates on Therapeutic Approaches

09.00 h Neurosurgery

Luca Regli

09.20 h Radiotherapy

Matthias Guckenberger

09.40 h Systemic Therapy & the Blood Brain Barrier

Matthias Preusser

10.00 h Intrathecal Pharmacotherapy
Emilie Le Rhun

10.20 h Coffee Break

Brain Metastasis: Disease Updates

11.00 h Lung Cancer
Rolf Stahel

11.20 h Breast Cancer
Thomas Bachelot

11.40 h Melanoma
Reinhard Dummer

12.00 h Leukemia and Lymphoma
Thorsten Zenz

12.20 h Discussion

12.30 h Lunch Break

Controversies & Hot Topics in the Diagnosis and Management of CNS Metastasis

13.30 h Early vs Delayed Radiosurgery
Nicolaus Andratschke

13.50 h Prophylactic Cranial Irradiation
Dirk De Ruyscher

14.10 h Steroids & Bevacizumab
Patrick Roth

14.30 h Vascular Complications
Fabian Wolpert

14.50 h Epilepsy & Driving
Silvia Hofer

Keynote Lecture

15.10 h Cognitive Function and Patient-Reported Outcomes
Martin Taphoorn

15.40 h Wrap-up and Adjourn
Rolf Stahel

Faculty

Nicolaus Andratschke

Department of Radiation Oncology, USZ

Thomas Bachelot

Centre Léon Bérard, Lyon, France

Priscilla Brastianos

Massachusetts General Hospital,
Boston, USA

Reinhard Dummer

Department of Dermatology, USZ

Matthias Guckenberger

Department of Radiation Oncology, USZ

Silvia Hofer

Luzerner Kantonsspital

Emilie Le Rhun

University Hospital CHRU, Lille, France

Klaus Pantel

University Medical Center,
Hamburg-Eppendorf, Germany

Matthias Preusser

Medical University of Vienna, Austria

Luca Regli

Department of Neurosurgery, USZ

Patrick Roth

Department of Neurology, USZ

Elisabeth Rushing

Institute of Pathology and
Molecular Pathology, USZ

Dirk De Ruyscher

Maastricht clinic, Maastricht, Belgium

Felix Sahm

Universitätsklinikum Heidelberg and
DKFZ, Germany

Joan Seoane

Vall d'Hebron University Hospital,
Barcelona, Spain

Rolf Stahel

Comprehensive Cancer Center Zürich,
USZ

Martin Taphoorn

Leiden University Medical Center,
Leiden, The Netherlands

Hussein Tawbi

MD Anderson Cancer Center,
Houston, USA

Manuel Valiente

Centro Nacional de Investigaciones
Oncológicas, Madrid, Spain

Michael Weller

Department of Neurology, USZ

Sebastian Winklhofer

Department of Neuroradiology, USZ

Fabian Wolpert

Department of Neurology, USZ

Thorsten Zenz

Department of Medical Oncology and
Hematology, USZ
